

ORDINANCE NO. 00165

WHEREAS, the County Executive of King County has been advised by the Department of Public Works that at the end of July the River Improvement Fund has been reduced to about \$10,000 for the balance of the year, and the amount of \$210,000 has been expended to date on the maintenance program, and

WHEREAS, on January 4, 1969, the County had a flood flow in its rivers, which is only expected once in ten years, and the damage to improvements far exceeded the average repair requirements, and all critical repairs have been made, but damages of lesser degrees have not all been fixed because of budget limitations, and,

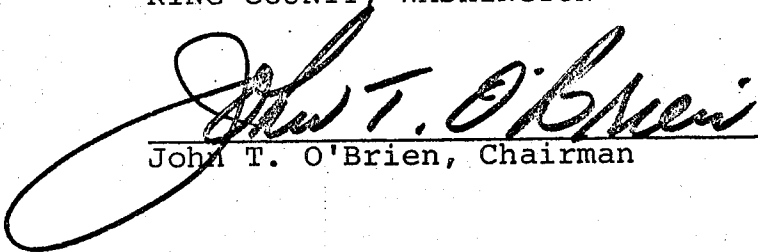

WHEREAS, to continue the needed maintenance work, the flood warning procedures, and to provide the necessary flood emergency help for the balance of 1969, an additional \$59,400 will be needed.

WHEREAS, the County Council finds as a fact that an emergency exists and that this Ordinance is necessary for the immediate preservation of the public peace, health, and safety, and for the support of County Government and its existing public insitutions, now, therefore,

BE IT ORDAINED that the emergency appropriation in the sum of \$59,400 be granted and this amount be appropriated to the River Improvement Fund to continue this work for the balance of 1969.
